

The new “tag” appears throughout the website and is featured on Pacific Secondary’s school clothing! Quite an accomplishment, for this aspiring young artist. Kyle garners his artistic vision from an influence of urban graffiti and hip hop artists and has expanded on that style to create his own unique style reflective of his personality and “growing up in the West Shore!” Finding a positive outlet for his artwork, Kyle continues to refine his art and is looking for opportunities to work with others to get his artwork out into the community.

Congratulations Kyle!
